### **ASL AVIATION GROUP ORDERS THREE AEI B737-400SF CONVERSIONS**

MIAMI, FL., --August 7, 2012-- Aeronautical Engineers, Inc. (AEI) is pleased to announce that it has been selected by ASL Aviation Group to provide three B737-400SF 11 Pallet Configuration Freighter Conversions. The aircraft are all ex Qantas high gross weight B737-400's, (MSN 24440/1992, MSN 24446/1994, MSN 24433/1990). All three aircraft will undergo freighter modification at AEI's Authorized Conversion Center, Commercial Jet, Inc., located in Miami Florida.

Mr. Robert T. Convey, Vice President of Sales & Marketing, stated that "We are honored that the ASL Aviation Group has selected AEI's B737-400SF 11 Pallet Conversion for their fleet expansion." He added, " We are pleased to welcome the ASL Aviation Group into the Aeronautical Engineers family of operators."

AEI's B737-400SF 11 Pallet Configuration will provide the ASL Aviation Group with an Ancra equipped Main Deck Cargo Loading System capable of carrying:

- Ten 88"x125"x82" or Eight 96"x125"x82" ULD's in P1-P10 and a 53"x88"x64" high pallet in P11  
(More full height ULD's than any other B737-400 conversion)

This unique configuration will allow operators to maximize the interior volume of the B737-400SF by the addition of a tenth ULD position.

#### **About AEI**

Formed in 1958, Aeronautical Engineers, Inc. (AEI) is the oldest conversion company in existence today. For more than 50 years AEI has provided advanced engineering solutions to aircraft owners and operators. Today the company is a global leader in passenger to freighter conversions for a wide array of aircraft, helping customers extend the life of the aircraft and increase the value of their asset. AEI has developed over 120 Supplemental Type Certificates (STCs) and 360+ aircraft have been modified with AEI STCs – more than any other conversion provider.

#### **About ASL**

ASL Aviation group is an established aviation group offering an unrivalled array of aviation services to customers worldwide. From passenger and cargo airline operations to aircraft leasing, maintenance and parts support, the breadth of services provided by ASL Aviation Group companies on every continent enables ASL to offer a truly unique service.
